STROUDWATER
ANALYTICS

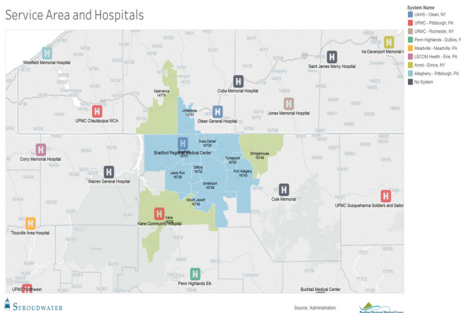

Overwhelmed by data? Our Market Assessment provides big-picture trends and detailed analysis in one effortless interface.

We believe all hospitals deserve easy and affordable access to user-friendly, interactive reports. That's why we created a comprehensive market assessment tool that organizes all your hospital's relevant information and presents findings in a beautiful, interactive, and simple-to-use web application.

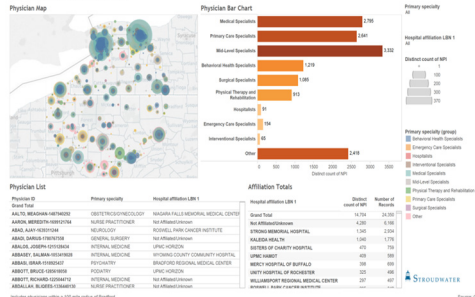

Designed with simplicity and clarity in mind, our market assessment combines public, state, proprietary, and internal data to help optimally position your organization to thrive. Elements of the report can be customized to your unique needs, and can include:

- Service area
- Provider landscape
- Quality v. cost comparison
- HCAHPS
- Insurance coverage estimates
- Population
- Medicare market share
- Inpatient estimates by DRG
- Outpatient estimates by procedure
- Physician summary
- Patient origin
- Volume
- Payment trends
